

Facets of Insurance @ ERGO Düsseldorf December 2-3, 2021

Are you interested in...

...learning about the current actuarial science research on **different aspects of Life and Non-Life Insurance** and how these topics influence the work of industry professionals at ERGO?

...finding out how you can benefit from the **cooperation with TUM through ERGO Center of Excellence in Insurance**, e.g. by writing a Master's Thesis on an interesting problem with a real-world application?

...visiting **ERGO headquarters in Düsseldorf** and networking with ERGO professionals?

...discussing **your experiences and future plans** in different fields of insurance?

Apply: Please send an email including your CV and transcript to experience.m13.ma@tum.de until **31.10.2021**.

INSURANCE

Workshop Description

Inspiring keynotes by Prof. Dr. Torsten Kleinow (Heriot Watt University, Edinburgh) and **Prof. Dr. Axel Bücher** (HHU Düsseldorf) will highlight current and future perspectives regarding life and non-life insurance respectively.

ERGO professionals will **present actuarial methods and solutions** currently used in different areas of insurance practice.

Graduate students and doctoral candidates from the Technical University of Munich will provide an **insight into their research on problems in Life and Non-Life Insurance**.

A **mixed audience** from academia and practice guarantees interesting discussions of the presented topics.

The supporting programme offers an **opportunity for networking** in a casual environment and **getting to know the city of Düsseldorf**.
